"Our continued growth is fueled by a highly skilled, technology-enabled revenue cycle team dedicated to resolving denials and safeguarding the financial stability of healthcare organizations nationwide."

"According to our latest [denials research report](#), nearly half of hospital revenue cycle leaders now cite payer denials as the greatest threat to financial performance," said Yardley. "Through ongoing innovation and deep operational expertise, Knowtion Health drives stronger recoveries and reduces financial friction—enabling hospitals to stay focused on patient care."

"Making the Inc. 5000 is always a remarkable achievement, but earning a spot this year speaks volumes about a company's tenacity and clarity of vision," says Mike Hofman, Editor-in-Chief of Inc. "These businesses have thrived amid rising costs, shifting global dynamics, and constant change. They didn't just weather the storm—they grew through it, and their stories are a powerful reminder that the entrepreneurial spirit is the engine of the U.S. economy."

According to Inc., the 5000 ranked companies generated \$300 billion in combined revenue in 2024 and added 536,086 new jobs to the U.S. economy over the past three years.
